

Police Dept. Cypress CA.

I want to thank the young officer who helped me find my long time friend Joan Datro. We have been friends since 1939 5th grade.

Evidently she went into the hospital soon after she lost Dan. Then to a Convalescent home -

I talked with her yesterday. She apologized for not letting me know. I could kill her but she's been through more than her share.

This young officer went beyond his call of duty to help me. This shows officers are compassionate and have good hearts.

Again my appreciation to you + your dept.
